

About the Institution

The Kammavari Sangam, established in the year 1952, is a non-profit oriented voluntary service organization. It has expanded its horizons to include community strengthening ventures, providing education, mechanical and financial support to the society. The Sangam started K S Institute of Technology, its first Engineering College in 1999. Following the success of KSIT, the Sangam ventured to start technical institution, oriented towards advanced studies and research, and thus started K S School of Engineering and Management in the year 2010.

RESEARCH BOARD**

About the Department

The Department of Civil Engineering is committed to excellence and innovation in education and research. The curriculum provides students to self-explore various areas in the branch of Civil Engineering.

The Department of Civil Engineering encourages the students to build a firm foundation through core courses, and then progress towards more specialized topics like High Rise Structures, Push-Over Analysis, Finite Element Methods, Building Performance Studies, Heritage Architectures, etc.

About the Seminar

The Seminar is aimed at dissemination of the knowledge acquired by various experts in the domain of vernacular architectures in India and performance of such buildings. This seminar will give an insight on comparison of traditional architecture with contemporary buildings.
