

Tenure Report | 2021 - 2022  
Mr. Dhanush Vasudevaraju | GDSC KSSEM Lead for the  
tenure 2021 - 2022

ACKNOWLEDGEMENT

With pride, I Mr. Rakshith B N, current GDSC Lead with former GDSC Lead Mr. Dhanush Vasudevaraju present this detailed report on the set of events carried out by the community for tenure of 2021 - 2022 to the department of Computer Science and Engineering under the guidance of Mrs. Amitha S, Faculty Advisor for GDSC KSSEM and Dr. K Venkata Rao, HOD CSE.

Dr. K Venkata Rao  
HOD CSE  
K S School of Engineering and Management

Mrs. Amitha S  
Faculty Advisor GDSC KSSEM  
K S School of Engineering and Management

RAKSHITH B N | GDSC LEAD

DHANUSH VASUDEVARAJU

RAKSHITH B N | GDSC LEAD

Date - 09-12-2022

Department of CSE  
K S School of Engineering and Management

**Subject: Report of 2021 - 2022 tenure of Mr. Dhanush Vasudevaraju**

To whomsoever it may concern,

This report states all the activities carried out by Mr. Dhanush Vasudevaraju of class 7th A, bearing USN 1KG19CS025. I kindly request the respected authority to accept this report.

**Declaration**

I Mr. Rakshith B N bearing USN 1KG19CS071, of class 7th B and the current GDSC Lead for the tenure 2022 - 2023, acknowledge this report to the best of my knowledge and state that all the information given here is true.

RAKSHITH B N | GDSC LEAD

I Mr. Dhanush Vasudevaraju bearing USN 1KG19CS025, of class 7th A and the former GDSC Lead for the tenure 2021 - 2022, acknowledge this report to the best of my knowledge and state that all the information given here is true.

DHANUSH VASUDEVARAJU

Dr. K Venkata Rao  
HOD CSE  
K S School of Engineering and Management

Mrs. Amitha S  
Faculty Advisor GDSC KSSEM  
K S School of Engineering and Management

## INTRODUCTION

Google Developer Student Clubs are university based community groups for students interested in Google developer technologies. Students from all undergraduate or graduate programs with an interest in growing as a developer are welcome. By joining a GDSC, students grow their knowledge in a peer-to-peer learning environment and build solutions for local businesses and their community.

GDSC KSSEM since 2019 were based on teamwork and open source values, I presented myself as a valuable member and helped create a inclusive community with open source values, and encouraged the core team to apply for numerous opportunities upon which many had those exposure. I had a team of 6 members all whom played a important part in the successful completion of the tenure.

I can proudly say that, Ms. Deepika P N bearing USN 1KG19CS024 and Ms. Riya Sing bearing USN 1KG19CS075 were a part of the Microsoft Student Learn Ambassador as the campus ambassadors.

I can also say that all the core team members Mr. Rakshith B N bearing USN 1KG19CS071, Ms. Deepika P N bearing USN 1KG19CS024, Ms. Yogitha Prakash bearing USN 1KG19CS119, Ms. Valleri Manisha bearing USN 1KG19CS110, Ms. Devpoojitha bearing USN 1KG18CS029, Ms. Amitha S M bearing USN 1KG18CS008, Ms. Sahana S Hedge bearing USN 1KG20CS097, Ms. Meghana M bearing USN 1KG20CS063, Ms. Riya Singh bearing USN 1KG19CS075, Mr. Sean Kevin bearing USN 1KG18CS098 contributed immensely to the successful completion of my tenure and I can say that I'm proud to have collaborated and have them as a part of the core team.

All the core team members had exceptional capabilities individually and in the sense of collaborating as a team, which led to the numerous successful events and collaborating with two different companies.

I would also like to thank GDSC India and Mr. Sameer S Kashyap for helping me and instilling his knowledge and support in me always. I would also like to thank all the existing core team member of GDSC KSSEM from the tenure 2019 - 2020 for helping me in completing my tenure. I would also like to thank our current GDSC KSSEM lead Mr. Rakshith B N for being there in every step of the way.

## LIST OF EVENTS

The given below are a list of events that took place -

### 1. GDSC WOW [Wonder of Wonders] | February 25 - 27, 2021 [Virtual]

A pan India event, and one of the biggest collaborative online events with over 200+ GDSC's across India. A three days long virtual event, consisting of a plethora of activities like Speaker Sessions, Live Coding, Open Source Projects, Webinars and Discussions on various topics of the latest technologies, and much more.

### 2. Android Study Jam KSSEM | November 27, 2021 [Virtual]

Become an Android Developer using Kotlin programming language with the help of a curriculum provided by Google. A much needed skill in today's world of developing Android Apps. The Event Covered what are Android Study Jams, which Track is best for you, how to Proceed after choosing your desired Track.

### 3. Google Cloud Study Jam #1 | October 18, 2021 [In-Person]

We hosted our first offline Google Cloud study Jam as a part of 30 days of Google Cloud offered to the students of GDSC-KSSEM. Everyone is welcome to learn more but only successfully enrolled students will be able to participate in hands-on lab.

### 4. Google Cloud Study Jam #2 | October 9, 2021 [In-Person]

We hosted our first offline Google Cloud study Jam as a part of 30 days of Google Cloud offered to the students of GDSC-KSSEM. Everyone is welcome to learn more but only successfully enrolled students will be able to participate in the hands-on lab.

### 5. Insight Into GDSC | October 24, 2021 [Virtual]

We welcomed participants to this amazing event!, we have come up with a mega event in collaboration with 14 other DSCs. This online event "Insight into DSC" was a grand informative session with 4 amazing speakers! It will give you a better idea about Developer Student Club and the things we do to bring a change. We hope that after this event, many of you will join us with more energy and be a part of our journey!

### 6. Hands-on Session on Poster Designing | May 7, 2021 [Virtual]

We welcomed participants to this amazing event!, we have come up with a mega event in collaboration with 14 other DSCs. This online event "Insight into DSC" was a grand informative session with 4 amazing speakers. It gave the participants a better idea about Google Developer Student Club and the things we do to bring a change.

## CONCLUSION

My journey began with Mr. Sameer S Kashyap getting selected as lead for his tenure 2020 -2021 and recruiting me as one of core members at DSC KSSEM. We were actively mentored and supported by Mr. Sameer S Kashyap, Ms. Parinita Vedantam and Mr. Rajath Bharadwaj. I got the opportunity to learn necessary skills required to get selected as lead for GDSC for the tenure 2021-2022 with the support of my fellow core members and team.

My tenure as the lead for GDSC started with introduction of Mrs. Amitha.S as faculty advisor and active guidance from former HOD, Mrs. Vandana Jha. I would like to mention Mr. Rakshith B N and Mr. Sameer Kashyap's for supporting me to form a team with Mr. Rakshith B N himself bearing USN 1KG19CS071, Ms. Deepika P N bearing USN 1KG19CS024, Ms. Yogitha Prakash bearing USN 1KG19CS119, Ms. Valleri Manisha bearing USN 1KG19CS110, Ms. Devpoojitha bearing USN 1KG18CS029 with new members- Ms. Amitha S M bearing USN 1KG18CS008, Ms. Sahana S Hedge bearing USN 1KG20CS097, Ms. Meghana M bearing USN 1KG20CS063, Ms. Riya Singh bearing USN 1KG19CS075, Mr. Sean Kevin bearing USN 1KG18CS098.

During my tenure, the GDSC and the entire supporting members from Google helped groom many leads like me. It helped me achieve quite a few milestones such as joining a startup company "Techie Tessie" and getting selected for internship at "Celstream Technologies". Also, I got the opportunity to help other GDSC lead aspirants to get selected. I hope that my tenure as a lead benefitted my fellow peers to gain new skills and knowledge through Google's events.

I would like to thank every core team member for their immense enthusiasm to learn and team spirit which helped our college's GDSC club to outperform other colleges' clubs. I would also like to proudly mention Ms. Deepika P N bearing USN 1KG19CS024 and Ms. Riya Singh bearing USN 1KG19CS075 for getting selected as Campus Ambassadors for Microsoft Student Learn Ambassador program during my tenure.

I would also like to thank our current HOD, Dr. K Venkata Rao for his support towards the growth of our club and our faculty advisor, Mrs. Amitha S for acting as backbone towards our club and conduction of every Google event.

Finally, I would also like to highlight Mr. Rakshith B N and Ms. Deepika P N for their tremendous hardwork and implementing various new approaches for the benefit of our peers and college during my tenure. I would like to wish all the best to Mr. Rakshith B N and his whole team for their future endeavors. I would like to wish the same for all upcoming GDSC leads and core members of our college. I hope that our club continues to grow and achieve new milestones.

'Inauguration of IEEE SENSOR COUNCIL STUDENT CHAPTER'

Event name: Inauguration of IEEE SENSOR COUNCIL STUDENT CHAPTER

Date of event: 18 April, 2022

Targeted Audience: All students and faculty members of ECE depart.

We had an inauguration of IEEE Sensors Council Student Chapter, which was a new sub-branch launched in the IEEE student branch of our student branch.

The event hosted by Ms. Aswini Chair, IEEE KSSEM Student Branch, This event had a chief guest Dr. Ravishankar Holla as well as guest speaker for the day Dr. Uttam M Pal and Principal Dr. K. Rama Narasimha and Dr. Vijayalakshmi Akella vice principal and Hod of Civil department. Dr. Girish V Attimarad Hod and Chair of IEEE KSSEM student branch ECE and Dr. Karthik P Branch Counsellor IEEE Student Branch and students from ECE department who graced the occasion with their valuable presence. The Inaugural ceremony commenced with introduction of the Chief Guest by Dr. Girish V Attimarad and followed with the lighting of lamp by the dignitaries with talk by Dr. Vijayalakshmi Akella.

The inaugural ceremony came to end with vote of thanks and the host thanked all the dignitaries for devoting their time and gracing the occasion by their presence and also thanked students and IEEE branch members that went above and beyond to make the IEEE Sensor Council Student Branch Chapter Inauguration a huge success.

Report on

'Technical Talk on Recent Advances in Optical Sensors in Healthcare'

Event name: Inauguration of IEEE SENSOR COUNCIL STUDENT CHAPTER

Date of event: 18 April, 2022

Targeted Audience: All students and faculty members of ECE depart.

We had an technical talk on Recent Advances in Optical Sensors in Healthcare under the IEEE Sensors Council Student Chapter, which was a new sub-branch launched in the IEEE student branch of our student branch.

The event Dr. Uttam Pal is an Assistant Professor in Biomedical Engineering Stream, Department of Sciences and Humanities, IIITDM Kancheepuram-Chennai. With the recent advances in the fabrication of electronics and optical devices, we are at a horizon of developing novel in-vivo optical tools. Such tools can help understand complex biological systems, diagnose disease, and track disease progression. This talk will discuss the latest developments in optical sensors using biological tissue and fluid as interacting media. We will learn how the researchers are pushing frontiers further in the field of absorption spectroscopy; diffuse reflectance spectroscopy, polarization-sensitive spectroscopy, Raman spectroscopy, fluorescence spectroscopy, and surface plasmonic methods. The challenges of translating an optical device from bench side in laboratory to bedside in hospital settings will also be discussed.

“Brain Machine Interfaces & Machine Learning”

Date and Time : 7th July 2022 from 10.45AM to 12.45PM

Venue : Aryabhata Seminar Hall

Organized by: Department of Electronics and Communication Engineering, K. S. School of Engineering and Management, Bengaluru

Resource Person: Dr. K. Mahantesh, Associate Professor, Dept. of ECE, SJBIT, Bengaluru

Target Audience: 6<sup>th</sup> semester students of ECE (Both A & B Section)

**Scope and Objectives:**

This Guest Lecture focused on importance of booming technologies like Machine learning, Internet of Things and Artificial Intelligence.

This guest lecture on Brain Machine Interfaces & Machine Learning was organized for 6<sup>th</sup> semester students of Electronics & Communication Engineering. 70 students were present in the guest lecture. Speaker informed about importance of supervised and unsupervised learning in artificial intelligence. He also informed the significant differences between classification and regression. He also mentioned the usage of continual and zero shot learning in artificial intelligence. Students were benefited learning about different types of technologies which are existing in the market.

Lots of questions were asked at the end of speaker's presentation. Speaker answered all the queries asked by the participants. Speaker discussed about current technologies

Report on  
**Webinar on 'VLSI & image processing'**  
**Organized by IEEE Student Branch, KSSEM**  
**In association with IEEE Bangalore section.**

Event name: Webinar

Topic: Demystifying in VLSI & image-processing

Date of event: 2<sup>nd</sup> June, 2022

Number of participants: 50

Targeted Audience: ECE Students of all semesters.

The IEEE Student branch in association with the ECE department, of KSSEM, had organized a technical talk on, "Demystifying in VLSI & image-processing" on 2<sup>nd</sup> of June 2022 at 6pm IST.

The webinar was conducted through 'Zoom' – a videoconferencing platform. The talk was delivered by Dr. K Ezhilarasan, Assoc. Professor, ECE, and CMR University. Dr. Girish V Attimarad, HoD of ECE, & Dr. Karthik P, branch counsellor of IEEE KSSEM SB graced the event with their presence.

Dr. K. Ezhilarasan delivered a lecture on *VLSI*. Very large-scale integration is a process of embedding or integrating hundreds of thousands of transistors onto a singular silicon semiconductor microchip. The remarkable growth of the electronics industry is primarily due to the advances in large-scale integration technologies. With the arrival of VLSI designs, the number of possibilities for ICs in control applications, telecommunications, high-performance computing, and consumer electronics as a whole continues to rise.

The speaker also explained about *Image-processing*. Image processing is the process of transforming an image into a digital form and performing certain operations to get some useful information from it. The image processing system usually treats all images as 2D signals when applying certain predetermined signal processing methods.

The session was interactive and we gained insights on some ground-breaking technologies of the Electronics world. We also received good response and good feedback from the Audience. In conclusion, this webinar was very resourceful and successful.
