**LETTER OF RECOMMENDATION**

As the professor and Head Of Department at K S School of Engineering And Management, it gives me great pleasure to provide this letter of recommendation for Ms. HARSHITHA S an undergraduate student at the department of civil engineering. I have known her for 4 years. I have taught her fluid mechanics in 3<sup>rd</sup> sem and I have guided her throughout. Harshitha has always prioritized ethics and culture, exhibited truth and transparency, fearlessness and is focused.

Harshitha has in depth knowledge of 2D modelling tools like Autocad, E-tabs which were used to draw basic building plans and analysis. She always completes her work with excellent quality and on time. She possess good communication skills which are evident from her presentation and reviews.

Harshitha is presently working on her final year research project on the topic "ULTRA HIGH PERFORMANCE CONCRETE". She is a team player and is taking lead in the project. I am particularly impressed with her dedication and hardwork to complete the work before the deadline and meet her professors expectation with hardwork and perservance. She has developed the necessary personal, academic and social skills to excell in future both culturally and professionally.

I highly recommend her for the program of Msc in Construction and project management with BIM and seeks admission to your university. I wish her all the best in future endeavours and shall be glad to guide her as well. Please reach to me if you have any queries regarding her candidature.

Regards, 

**Dr. Vijayalakshmi Akella**

Professor and Head

Department of Civil Engineering
