Bangalore Institute of Technology was started in the year 1979 with the intention of providing quality education in the field of technology and thereby serving our society. It has reached enviable level of excellence in technical education. This was achieved by our staff and committed students, as well as very good infrastructure facilities provided by the management. The atmosphere in the college is quite conducive for learning and practicing the various disciplines of the Engineering. The all-round development of a student is given top priority in college. BIT has always been at the forefront of modern technology and is credited with the introduction of the first full-fledged Computer Science & Engineering degree in Karnataka. Thus, the institute has identified future growth areas and incorporated various courses over the years. At present BIT has 9 undergraduate, 10 post graduate and Ph.D. course(s) and the intake of BIT is more than 4000. The institute offers the Bachelor of Engineering (B.E.) Degree in Civil, Mechanical, Electrical and Electronics, Electronics and Communication, Computer Science, Electronics and Instrumentation Technology, Telecommunication, Information Science and Engineering and Industrial Engineering and Management. There are a number of centers carrying out inter-disciplinary research and many collaborative programs exist between the college and other institutions, like IISc, N.A.L etc. The chemistry department has been recognized as one of the latest research centers in the state of Karnataka. The college is also a program center for IGNOU Teaching & research work is also amply supported by facilities such as central library with 90,000 volumes of text books and reference books, and an Industrial Consultancy and Research Center.

The Department of Mechanical Engineering, as an academic unit of Bangalore Institute of Technology, has its distinct place in the Engineering Education. Department of Mechanical Engineering was started in year 1979 to impart high quality Mechanical and Technical skills to the Blooming engineers. The department currently runs

AICTE approved UG and PG programs (Machine Design and Manufacturing Science Engineering) and are affiliated to Visvesvaraya Technological University (VTU), Belagavi, Karnataka. The department provides a blend of theoretical and practical knowledge that match well with the requirements of the industry. The Department of Mechanical Engineering is a team of well qualified 41 teaching staff members and well trained non-teaching staff. All the staff members have post graduate degrees and 15 of the staff members are doctorates. The department has experienced and young full-time core Faculty in all functional disciplines of Mechanical Engineering such as Design, manufacturing and Thermal Science, who are engaged in teaching, research and outreach activities.

Additive manufacturing, also known as 3D printing, is a method of converting digital models into reality through the layer-by-layer deposition of material. Compared to traditional subtractive manufacturing methods, additive manufacturing results in less material wastage and enables the creation of complex geometries which would otherwise be too difficult if not impossible. This seminar will be the eye opener for beginners in the field of Advanced manufacturing. It gives detailed information about the additive manufacturing process.

The seminar is interdisciplinary in nature and is open to the faculty members of all Engineering Institutions. Selection of participants will be on first come first served basis.

Registration Fee is 300/- per head (Students), 500/- (Academicians) & 700/- (persons from Industry) and participants need to e-mail the completed scanned registration form to bitmca@vsnl.com by 20th July 2019.

Payment Mode: DD drawn in favour of 'PRINCIPAL, BIT' or Cash at Venue.
 * Only Limited Participants will be admitted on "First come - First Served basis"
